Standards and Criteria (Section XIV [E]):

Describe how the proposed project meets the following criteria (use additional paper if necessary):

1. The landscape shall be preserved in its natural state insofar as practical. The Board shall encourage the applicant to avoid grade changes and the removal of native vegetation and soil.

2. The proposed development shall relate harmoniously to the terrain and to the use, scale and proportions of existing and proposed buildings in the neighborhood.

3. Proposed development shall be in harmony with the prevailing character height and scale of other buildings in the neighborhood and the Town through the use of appropriate scale, massing, building materials, screening, lighting and other architectural techniques.

4. Proposed building sites shall avoid impact on steep slopes, flood plains, hilltops, dunes, scenic views and wetlands.

5. The protection of unique or significant environmental resources including protection and maintenance of groundwater quality and recharge volume and the water quality of coastal and fresh surface water bodies.

6. The site plan shall maximize the convenience and safety of vehicular and pedestrian movement within the site and in relationship to adjacent ways.

All information must be submitted at the time of filing.

*Incomplete applications may be delayed in processing,
or refused to be heard by the Planning Board.*

Applicable fees must be submitted with the application.
